NICE recommends
Thopaz+ portable digital chest drainage device

“The case for adopting Thopaz+ for managing chest drains is supported by the evidence. Thopaz+ can reduce drainage time and length of stay in hospital, and improves safety for people with chest drains. Its use may also improve clinical decision-making through continuous, objective monitoring of air leaks and fluid loss.”

- Allows for **COST SAVINGS** of up to 550 £ per patient
- Improves **SAFETY** for patients with chest drains
- **SHORTENS** hospital stay due to shorter chest tube duration
